EXPERIENCE

Azad Chaiwala Institute (PYTHON, DJANGO DEVELOPER)

During my tenure at Azad Chaiwala Institute, I thrived as a Python Django Developer, spearheading multiple projects. This experience turbocharged my proficiency in Django, refining my skills in Python, database modeling, API integration, and user interface design. Azad Chaiwala Institute offered a fertile ground to cultivate classroom knowledge into practical, result-driven solutions, leaving me with a repertoire of impactful projects and an unwavering zeal for Python-based web development.

Karakoram X (Database Intern)

During my six-month internship at Karakoram X, I actively engaged in diverse data-driven projects within the realm of data science. Working with various databases, I developed a comprehensive skill set that enabled me to extract, analyze, and interpret valuable insights. Collaborating closely with the team, I contributed to the creation of innovative solutions while gaining hands-on experience in data manipulation and visualization. My internship at Karakoram X provided me with a dynamic learning environment, honing my abilities to derive meaningful conclusions from complex datasets and laying a solid foundation for my journey in the field of data science.
